

Welcome to your

BUILDING MAINTENANCE SERVICE REQUEST **PORTAL**

The QSRmax Service Request Portal greatly improves the ability for Marines to register maintenance requests. The portal retains the ability for the barracks sergeant to remain in control and have awareness of the reported issues and provides feedback to the Marine on the status of their service request to create a previously unheard-of ability to keep the Marine updated with the status of their requests.

SCAN

Scan the QR code to access the portal on your personal mobile device.

REPORT

Select a building and then type in a few words to report the issue.

VALIDATE

Watch Officers will review the requests and forward to Facilities Management where appropriate.
