Chapter 1

MARINE CORPS SINGLE MARINE PROGRAM

1. Program Description. The SMP directly impacts combat readiness and assists commanders in preventing unhealthy situations before they develop into serious problems. SMP serves as a prevention resource to those behaviors which negatively impact the mission readiness of our Marines and commands. The program is a conduit to address single/unaccompanied service member QOL recommendations. The SMP is comprised of three program components: QOL, Recreation, and Community Involvement. These components shall be implemented in accordance with the program standards related to programming recreation, community involvement and QOL detailed in section 4 below. All components of SMP assist in total force readiness, fostering healthy lifestyles and personal development.
2. Policy Mission. To issue policies governing the management, operation, and administration of the SMP. This Order implements relevant DoD, higher level authority, and other directives where appropriate.
3. Program Mission Statement. The SMP fosters personal and professional growth in single Marines through QOL advocacy, engaging in community opportunities through volunteerism and recreation activities. The SMP enhances total force readiness by providing single Marines with opportunities to develop life skills, improve their general health, resilience and morale while empowering SMP leaders to serve as advocates for their units and peers.
4. Program Components. The three components of the SMP directly contribute to improving morale, increasing self-sufficiency, integrating the single service member into the community, enhancing communication as a unified voice, and developing future leaders. This focused effort equips single/unaccompanied service members with the knowledge and skills necessary to proactively deal with challenging situations before they develop into serious problems. These components, listed below, provide the opportunity for balanced personal and professional growth for single/unaccompanied service members.
  - a. Quality of Life (QOL). The SMP is a conduit to address single/unaccompanied service members' QOL recommendations. The SMP Coordinator serves as a single/unaccompanied service member's advocate for their QOL recommendations and initiatives. QOL issues primarily involve those things that single/unaccompanied service members can directly or indirectly influence to enhance their morale, living environment, and personal growth/development which supports the chain of command and directly impacts readiness and retention. Each SMP shall document QOL recommendations/concerns and/or initiatives identified in the SMP Council Meetings. These will be reported and uploaded to the HQMC MCCS Gear Locker site located at: <https://ehqmc.usmc.mil/sites/family/SemperFitRec/smp/SMPPolicy/Forms/AllItems.aspx>. The SMP Coordinator serves as a source of information and liaison for the SMP QOL issues and initiatives, and assists installation program managers with programming based on feedback and needs. The SMP Coordinator is responsible for documenting and monitoring all QOL issues and initiatives identified. The SMP Coordinator works in conjunction with the installation SgtMaj and/or appointed SEA to identify points of contacts for resolving QOL issues identified by single Marines. The SMP Coordinator will take the lead in coordinating issues related to MCCS/Semper Fit and civilian agencies. The

installation SgtMaj/SEA will take the lead in coordinating issues related to direct military issues (e.g. barracks, transportation, and medical).

b. Recreation. Activities and special events are developed solely by SMP or in conjunction with other MCCS programs for single/unaccompanied service members. These activities provide healthy alternatives for the positive use of leisure time, and improve resiliency. These activities enhance physical fitness, provide opportunities for social interaction, life-skills development, and cultural awareness. The experience gained by single/unaccompanied service members who participate in the planning and execution of these activities directly enhances their leadership skills and teaches them program and event planning principles. Each installation shall at a minimum provide the activities and special events, such as trips, classes, competitions, socials, etc. identified in Figure 1-1. This information shall be reported annually through the HQMC MCCS Gear Locker site located at: <https://ehqmc.usmc.mil/sites/family/SemperFitRec/smp/SMPPolicy/Forms/AllItems.aspx>. The SMP Coordinator shall budget for and plan at least the minimum number of events outlined in Figure 1-1.

Ensure the SMP Council properly plans and coordinates all activities and trips.

c. Community Involvement. Activities either developed or supported by the SMP that contribute to the base and surrounding community through voluntary participation by single/unaccompanied service members as depicted

in Figure 1-1. Activities may include: American Red Cross blood drives, adopt-a-highway, mentoring in public schools, Special Olympics, Toys for Tots, youth sports coaching, and community-wide special events, etc. Involvement in the community brings recognition to the SMP and provides the volunteers with a positive and healthy alternative for the use of their leisure time. SMP Coordinators will ensure letters of appreciation are issued to all volunteers within 10 business days for all SMP-organized events. SMP Executive Boards may choose to appoint a single/unaccompanied service member as a "Volunteer Liaison" for the SMP Council as a non-voting member.

SMP Days of Service opportunities are to be identified either on an installation, or in/around the civilian community.

(3) Volunteers, with assistance from the Installation Volunteer Coordinator when needed, are recruited, trained, utilized, and recognized for assisting with the SMP. Volunteer information shall be documented and maintained for single/unaccompanied service members that volunteer in support of the SMP. More information on volunteer events and tracking can be found in reference (d) and reported through the HQMC Gear Locker site located at <https://ehqmc.usmc.mil/sites/family/SemperFitRec/smp/SMPPolicy/Forms/AllItems.aspx>.
